

Dental Claim Accuracy

Prevent incorrect dental claim payments before they occur

Meet rising costs with better payment integrity

With dental costs at an estimated [\\$198 billion in 2025](#) and expected to keep growing, the sector has become an increasingly critical focus for payment integrity. Payers need a more proactive way to identify improper dental claims before payment. Cotiviti's Dental Claim Accuracy solution helps address this challenge with a comprehensive prepay model that combines advanced analytics, automated policy application, and professional dental review. This approach helps payers to drive incremental savings, reduce administrative burden, and minimize provider abrasion.

simply looking at suspect
providers

Drive comprehensive prepay review for dental claims

Dental Claim Accuracy is an all-in-one prospective solution that bundles provider-enhanced review, code editing, pre-estimation, and professional review capabilities for comprehensive payment accuracy. Dental Claim Accuracy analyzes dental claims using advanced algorithms applied to nationally sourced and proprietary edits to flag potentially incorrect claims before they are paid. Dental Claim Accuracy features include:

- End-to-end prepay payment integrity and appeals management
- Peer-to-peer consultation
- Professional clinical review by dental experts
- Configurable policies with real-time and batch processing
- Managed service model with reporting and client support through our Payment Clarity® transparency solutions

Combine automation with industry expertise

Dental Claim Accuracy combines automated rule application with professional dental review to flag incorrect claims before payment. Built for dental payment integrity, the solution is backed by URAC accreditation, advanced analytics, rapid turnaround times, and Cotiviti's policy library. It helps payers manage policies at scale, process claims in real time, and generate an average of >3% incremental savings after primary editing—all while reducing operational lift and provider friction.

Why Cotiviti?

With a policy-driven approach and future-ready capabilities, Cotiviti helps payers improve consistency, reduce complexity, and strengthen dental payment accuracy. Cotiviti's Dental Claim Accuracy solution is purpose-built for dental payment integrity, bringing together automated editing, professional review, appeals management, configurable policies, and transparency tools in one scalable solution.
